Econometric Consulting

Econometric Modeling Support for Corporate Litigation

Affiliated Experts

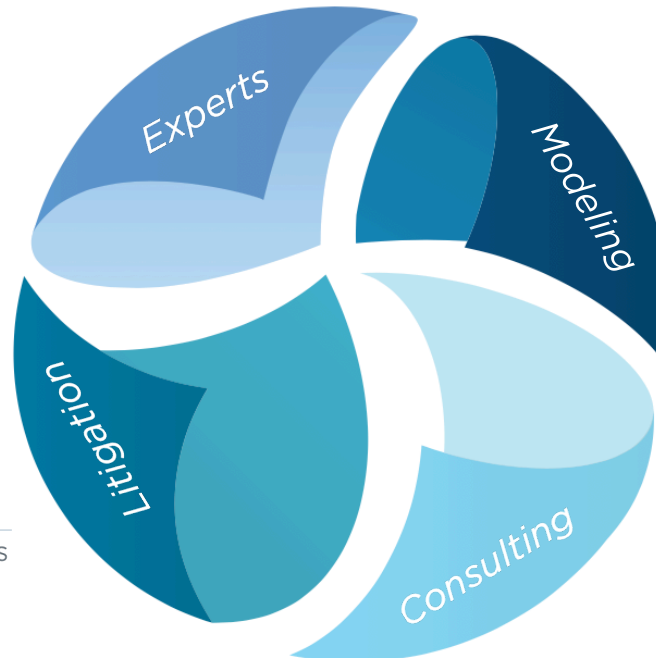

We support law firms and attorneys with the identification of Expert Witnesses, many of whom are drawn from our own established network of professionals. Areas of expertise include:

- *Economics*
- *Finance*
- *Accounting*
- *Management Sciences*
- *Data Science*
- *Operations Research*

Litigation Categories

Applicable corporate litigation cases warranting our support include:

- *Force Majeure Claims*
- *Antitrust & Competition*
- *Financial Distress*
- *Loan Default*
- *Intellectual Property*
- *Securities Violations*
- *Tax Fraud*
- *Merger & Acquisitions*

Econometric Modeling

We support corporate litigation proceedings and assigned Expert Witnesses with complex econometric modeling techniques including financial and economic model development and the application of statistics and simulation modeling. These types of economic impact modeling include:

- *Damage Modeling*
- *Valuations*
- *Impact Analysis/Economic Loss*
- *"But For" Analysis*
- *Alternative Scenario Modeling*
- *Econometric Forecasting*
- *Data Science & Statistical Modeling*

Litigation Consulting

We assist in the effective presentation and delivery of complex quantitative and economic concepts in corporate litigation.

- *Attorney Preparation*
- *Expert Witness Mentoring*
- *Data Visualization*
- *Sentiment Pre-Testing*
- *Deposition/Trial Preparation*
- *Daubert Challenge Support*

Sand Cherry serves as a nexus supporting legal practices and expert witnesses, creating greater leverage and economically delivering higher quality outcomes.
